

ON THE GOLDEN SANDS OF TIME

Keep a hold of your dreams,
The dreams to make your life go as you want it to,
Keep your feet on the ground that makes
The hard rocky road to where you're going.

If you're strong through it all,
You will reach your goal somehow,
It's not where you're coming from
But where you're making for that matters now.

CHORUS

Keep your foundations strong and expectations high,
If they call you a dreamer it's true, so let it ride,
Keep your foundations strong and expectations high,
Throw your coins into the wishing well that stands
On the golden sands of time.

Keep a hold of your dreams
And do all that you can to realise them,
Keep a hold of your dreams
Even if you ever need to change direction.

If you're on that road alone,
Or maybe with another optimistic dreamer,
Remember, even if you fall,
There's still a chance that you can have it all.

CHORUS

Keep your foundations strong, and expectations high,
If they call you a dreamer, it's true, so let it ride,
Keep your foundations strong and expectations high,
Throw your coins into the wishing well that stands
On the golden sands of time.

If you're strong through it all,
You will reach your goal somehow,
It's not where you're coming from
But where you're making for that matters now.

Keep a hold of your dreams,
Keep a hold of your dreams,
Keep a hold of your dreams
As I hold on to mine,

**Keep your foundations strong and expectations high,
Throw your coins into the wishing well that stands
On the golden sands of time.
Throw your coins into the wishing well that stands
On the golden sands of time.**
